DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Amendment

2. Receipt is acknowledged of the Amendment filed April 5, 2004.

Remarks

3. The current amendment overcomes the art rejection given in the previous office action. With the current amendment the applicant has more clearly defined independent claims 1 and 10. Therefore claims 1-15 are allowable.

Allowable Subject Matter

4. Claims 1-15 are allowable over prior art.

The following is an examiner's reason for allowance: Although there are many teachings in prior art which disclose positioning lines used for guiding a scanning device to decode a 2D symbol, the identified prior art of record, taken alone, or in combination with any other prior art, fails to teach or fairly suggest the specific features of claims 1 and 10 present claimed invention. Specifically, prior art fails to teach parallel positioning lines, which are not parallel with any border of the 2D symbol. Further still, prior art fails to teach the parallel positioning lines being printed on the barcode symbol itself and being used along with the 2D symbol to produce the scanned image. In other words, the positioning lines in the current invention are scanned together with the 2D symbol to produce the scanned image. This method of producing a scanned image is not taught

in prior art and moreover, one of ordinary skill in the art would not have been motivated to come to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Cummings et al (2002/0179717), Chiu (2002/0084330), De Renzis (2002/0121551) and (6,742,710), Maltsev et al (5,777,309), Smith et al (5,545,887), Wang (5,304,787).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allyson N. Trail whose telephone number is (571) 272-2406. The examiner can normally be reached between the hours of 7:30AM to 4:00PM Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee, can be reached on (571) 272-2398. The fax phone number for this Group is (703) 872-9306.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [allyson.trail@uspto.gov].

All Internet e-mail communications will be made of record in the application file.

PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.
